MEMORANDUM FOR 355TH FIGHTER WING AND ASSOCIATE UNITS

FROM: 355 FW/CC

SUBJECT: Fighter Wing Environmental Policy Statement (s/s 355 WG/CV Memorandum, 3 Sept 03 Environmental Policy Statement)

1. Davis-Monthan is committed to conducting its mission in an environmentally responsible manner to protect human health, natural resources, and the environment. Our goal is to sustain mission capability by reaching beyond compliance with the law and integrating sound environmental practices into the various stages of processes and business decisions. We have in the past, and will continue to pursue in the future a course of environmental stewardship. Environmental protection is a primary management responsibility, as well as the responsibility of each individual in the Davis-Monthan community. In support of our environmental policy, we will strive to:

- a. Promote the conservation and sustainable use of our natural resources
- b. Prevent pollution at its source, and recycle where feasible
- c. Continually improve environmental performance through effective planning
- d. Periodically review and update the Environmental Management System and its goals to reflect current mission operations

2. Conformance with this policy is the responsibility of all Davis-Monthan team members, and is vital to the installation's continued environmental excellence and mission sustainment.
